		<i>Please note that if we receive CUSTOMIZE seats at our workshop with missing components on the base, such as metal fittings, pads, rubber mounts, etc., this will not prevent the saddle from being customized. However, we will unfortunately be unable to replace the missing components, as we do not keep them in stock. Thank you for your understanding.</i>	

With the exception of our SIT'N GO seats ready for shipment, a maximum lead time of 5 weeks should be considered for the manufacture of your custom seat (lead time starting from receipt of your seat in our workshop for the CUSTOMIZE Series)

If you have any specific requirements, please contact us so we can provide you with a personalized quote that meets your expectations at: commandes@bagster.com
